

# BRYANT & HOPE VENTURES LLC

## CAPABILITY STATEMENT

One requirement. One partner. The right solution.

## COMPANY OVERVIEW

Bryant & Hope Ventures LLC is a small business, established in 2022 and based in Brooklyn, New York. We connect government and commercial organizations with the products, services, suppliers, manufacturers, contractors and specialized resources needed to fulfill their requirements. Our approach is solutions-driven: understand the requirement, identify the right resources, coordinate the solution, and deliver results.

## CORE COMPETENCIES

- **Products and supplies sourcing:** commercial, industrial and maintenance products, sourced from manufacturers, distributors and suppliers.
- **Equipment and specialty sourcing:** material-handling equipment, machinery, and hard-to-find or custom items.
- **Facility and building services:** janitorial, landscaping, HVAC and plumbing, equipment repair and maintenance, and waste management support, delivered with qualified partners.
- **Contract and vendor coordination:** scope review, partner selection, scheduling, reporting and closeout.
- **Custom procurement:** requirements that do not fit a catalog, researched and sourced to specification.

## HOW WE DELIVER

We act as the prime point of contact, accountable for oversight, compliance, coordination, quality control, reporting and invoicing. Where work is performed by a partner, we identify that role plainly and manage the partner to the requirement.

- Requirement review against scope, specifications and delivery terms
- Vetted partner selection, with licensing and insurance checks where required
- One point of contact from quote through delivery, with documented quality checks and status updates

## DIFFERENTIATORS

- **Broad reach, one contact:** a wide sourcing network managed through a single accountable partner.
- **Registered and ready:** active SAM.gov registration with UEI and CAGE code on file.
- **Small, responsive team:** direct access to the people handling your requirement.

## COMPANY DATA
